## Small Reindeer Ball Pendant

The Small Reindeer Ball Pendant is crafted from steel and aluminum with powder-coated finishes and milky glass diffusers that can be used in a variety of indoor locations. The soft ambient light omitted from the fixture calls for a comfy, yet classic setting and the articulated joints allow the glass to be arranged in a multitude of ways, allowing for different experiences with each new arrangement. The glass balls bring on a more modern lighting experience and makes the setting more stylish.
