

The PoE Tek Renk Wall Sconce is a transitional fixture with a geometric design. Named for its mono-chromatic appearance, this fixture is extremely versatile and can be used in many different place settings. It is also very simple in design and color and as such is easily incorporated into any type of design and color scheme. This product is ideal for but not limited to annexes, hallways, entry ways, vanities, and a variety of different applications.

Our intelligent LED PoE lighting solutions accelerates digital transformation of facilities in Internet of Thing (IoT) while providing an excellent option to the lighting designer or building management companies that are seeking aesthetic pleasure with digital building solutions throughout the facilities with option of covering multiple building networks beyond considerations of cost and efficiency.
