Aereo Pendant

Aereo PENDANT

Description:

Made from a finished metal body and patterned acrylic glass, the Aereo Pendant derives its name from the Italian word for airplane. The patterned acrylic glass allows for the led module to illuminate the shade evenly and create a nice effect, having this pendant in a category all its own. Minimal in its design and highly modern in its look, the Aereo Pendant is perfect for open spaces and high ceilings. Simple and new-age is what this pendant is.
