LINEAR LED DIRECT LISCIO 2.1

Continuous Clean Lines and Clean Light
Trimless Version

Product Description:

The linear light Liscio series was designed to achieve different shape designs with easy and quick connection. Those products have re-defined user experience of linear light through modularity design and quick assembly & installation.

It breaks the idea which restricted traditional lighting fixtures and created complicated wiring of old version linear light fixtures. It has achieved "three quicks": quick assembly, quick connection (eliminates complicated wiring) and quick corner connection.

LINEAR LED DIRECT LISCIO 2.1

Continuous Clean Lines and Clean Light

Trimless Version

Product Description:

The Liscio linear light quick connection series is based on concise style and user experience improvement. Various concise yet fashionable designs can be accomplished quickly through the creative ideas of space lighting designs and free design styles while emphasizing "QUICK" installation. Liscio permits the designer to create much better lighting effects than traditional lighting fixtures by revealing the beauty of linear light.

Fixture Features:

- Low glare version available upon request UGR<19 rated.
- End caps assembled by mechanical screws and magnet structure.
- Lighting CCT/color and CRI could be customized.
- Conform to ETL standard.
- Easy assembly/disassembly, customers do not need to do complicated wiring, use male/female connectors to connect electric power and to do free connection to get comfortable user experience.

PoE Features:

Our intelligent LED PoE Lighting Solutions accelerates digital transformation of facilities in the Internet of Things (IoT) while providing an excellent option to the lighting designer or building management companies that are seeking aesthetic pleasure with digital building solution through the facilities with options of covering multiple building networks beyond the considerations of cost and efficiency.
