

Chard

18205

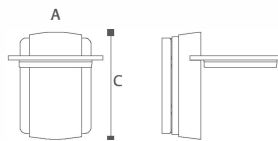

Consilio

Make the world brighter. Chard lamp, ultra-thin luminous surface, white lampshade, built-in LED chip, die-cast aluminum baking paint bracket. Go simple, create a light life with simplicity, and light up the colorful world; the light of darkness easily creates a warm feeling. We use brand-new light source technology. The light is soft and not dazzling, which reduces the harm of light pollution to eyesight. We insist on designing good lamps just to protect your health.
